

Waste Disposal Policy

Rural Municipality of Birch Hills No. 460

Date Adopted: September 9, 2015

Due to the closure and decommissioning of the landfill in the Town of Birch Hills in June 2011, the RM adopted the following to meet its legislative requirements:

- The RM of Birch Hills No. 460 provides ratepayers of the RM with a one-time reimbursement of \$150.00 for a waste removal container rental set-up from a company of their choosing to be located on their property.
- Waste and recycling bins are provided to each residence in the Hamlet of Brancepeth. The Hamlet Board has requested that the cost of this service is invoiced to the residents of the Hamlet every three months.
- Waste and recycling bins are provided to each residence in the Hamlet of Hagen. The Hamlet Board has included the cost of this service in the property tax levy.

Procedure for reimbursement:

In order to qualify for the one-time payment, a copy of the contract for waste disposal pickup must be provided to the RM office. That site is mapped and is only paid once regardless of ownership changes.
