

## Register Your Organic Lands

---

 [saskpower.com /our-power-future/our-plan-and-the-environment/register-your-organic-lands/](http://saskpower.com/our-power-future/our-plan-and-the-environment/register-your-organic-lands/)

We maintain vegetation around our power lines to help ensure their safe and reliable operation.

Learn more about our options for managing plant species along power line rights-of-way and view our Integrated Vegetation Management Brochure.

### **Don't want us to use herbicides on your property?**

If you don't want herbicides or other chemical treatments applied to a SaskPower right-of-way or facility located on your property, please let us know by filling out and submitting the **Request to Avoid SaskPower Herbicide Use on my Property** form below.

The information you provide will be kept in a secure database, which helps us identify sites where the use of herbicides must be avoided.

For more information, call Environmental Programs at 1-800-667-4749.
